35 years experience in the Pre-Press Repair Industry

Mike Neubecker is the owner and Service and Sales Engineer who has helped customers in Michigan, Ohio, Indiana, Illinois and across the country since 1978 with their prepress equipment problems and purchases. In addition Mike has had all the necessary vaccinations and is willing to travel internationally to service equipment. He has traveled to Douala, Cameroon in West Africa to install and repair equipment.

Alternative Repair Service is your partner in solving your prepress department troubles. A.R.S. is a local and reliable independent resource to the Printing Industry since 1991, assisting our customers in selecting equipment purchases and providing quality, reliable and affordable equipment service. Service is in our name because that is our emphasis. We service what we sell and service all the rest.

Small, independent prepress service and sales company since 1991. Electronics is our strength with troubleshooting often to the component level saving customers money on parts.
